

## **FOLLOW UP REPORT ON PATRENT-TEACHERS MEETING**

The Institute runs only one course i.e., Post Graduation in Aerospace Medicine which has 3 out of 10 seats for civil candidates. All students are above 21 years of age and have chosen specialty after in depth research. IAM is the only Institute imparting training in Aerospace Medicine. Being a Defence Services Establishment of repute for MBBS qualified MOs, the need has never arisen for any Parent - teacher meetings. However, the parents of students do interact with the faculty, esp dean from time to time.

The parents are provided with suggestion boxes and the feedback forms which undergoes dissection and analysis for removing deficiencies, correction of infirmities and necessary action for improving academic and administrative performance.
