TIME TO DREAM BIG

The theme of the 58th Annual Conference of the **Indian Society of Aerospace Medicine (ISAM)** is 'Time to Dream Big'. The specialty of Aerospace Medicine has grown from its initial days to its current form. The next giant leap for the specialty shall be based on a collective effort to take the specialty and the specialists to its zenith. The demand is already there. The Indian Human Space Programme is being launched in the foreseeable future, the expansion in the Indian Civil Aviation Industry has already started, the imminent aircraft procurements of the Indian Military and Indian Civil Aviation industry are strong indicators to the Aerospace Medicine fraternity. Additionally, RPAs, Control Station Modules, mid-air refuellers, Air Traffic Controllers, aviation related issues/ problems of the Aviation Support Industry also beckon us to **dream big** and address their unique issues summarily. It is time that the specialty re-invents and re-applies itself to be relevant to all its clientele in times to come.

Aerospace Medicine can prosper and grow by learning from the unique experience of professionals who have been contending with similar issues. This Conference provides the platform for exchange of ideas that could translate into a clearer appreciation of the solutions that have been tried and tested by others.

The Scientific Programme is being structured to make the Conference deliberations relevant to all persons involved with military & civil aviation and to Space environment as well.

WELCOME TO BANGALORE

Bangalore, the city holding the Conference is also known as the Garden City and is renowned as the IT Capital of India. At an elevation of 3020 ft AMSL, the city boasts of a moderate climate throughout the year. The Conference dates have been finalised to ensure an excellent weather during the period.

We look forward to hosting the Conference and solicit your presence to participate in the academic, social and cultural events that are being planned.

CALL FOR PAPERS

The Scientific Committee of the Conference invites authors to submit original research work, new concepts, reviews, innovations, case reports relevant to the theme of the Conference. The formats for interaction include podium & poster presentations, panel discussions, speaking posters, workshops and invited talks.

Interested authors/ organisations may interact with the Scientific Committee through the Organising Secretary at isamconference2019@gmail.com

Abstracts and full papers of the scientific presentations may be forwarded no later than **31 May 2019**.

Updates about the Conference shall be shared on the Society Website <https://www.isam.in>
